CME Cheese and Butter Prices Plummet

Prices for cheddar cheese and butter on the Chicago Mercantile Exchange (CME) declined sharply in recent days and are at their lowest levels since last February.

In mid-October, CME prices for barrels and 40-pound blocks of cheddar cheese were \$1.22 and \$1.25¹/₄ per pound, respectively. The barrel price has declined 42° in the month of October, while the block price is down $44^{3}/4^{6}$. The CME butter price in mid-October was $1.39^{3}/4^{6}$ per pound, down $35^{1}/4^{6}$ in October and nearly 83^{6} below its peak in late August.

The sharply lower commodity prices will result in lower Federal order prices as well. The Upper Midwest Order base zone Class I (fluid) price for October is \$17.73 per cwt., while the Class III (cheese) price for September is \$15.90 per cwt. These prices are the highest since Federal order reform in January 2000.

However, over the next two to three months, even with no further declines in the CME prices, both the Class I and Class III prices could decline by as much as \$6 per cwt.

Pool Summary

- In September, 15,363 producers delivered to the market with an average daily delivery of 3,906 pounds.
- Producer milk totaled 1.8 billion pounds, up 18% from August on a daily basis.
- Class I utilization totaled 335

million pounds, up 2% on a daily basis from August.

- Class I usage accounted for 18.7% of producer milk.
- The September Producer Price Differential is \$0.38 per cwt.
- The Statistical Uniform Price is \$16.28 per cwt., up \$0.22 from August and \$4.82 above September 2000.
- Market statistics for September are shown on Pages 4 and 5.

Northeast Compact Expires

Compact expired on October 1, 2001 when no legislation to extend it was passed by Congress.

The Compact was authorized by the 1996 Farm Bill, designed to be a transitional system until Federal order reform was implemented. It was subsequently extended by Congress.

The purpose of the compact was to allow higher Class I (fluid) prices in the compact area, which included six Northeastern states.

Mailbox Milk Prices

The Dairy Programs section of the Agricultural Marketing Service, through its Federal milk order Market Administrator offices, collects and publishes "mailbox milk prices".

Beginning in 2001, in an effort to provide mailbox price information that USDA believes would be more meaningful and useful, Dairy Programs began collecting and publishing mailbox price data for reporting areas that are smaller than Federal-milk-order-wide. Federalmilk-order-wide prices were discontinued. The Upper Midwest Order, however, has continued to calculate and publish a market-wide mailbox price.

Mailbox prices for January through May 2001 are contained in the table below. In May 2001, the mailbox price for selected reporting areas in Federal orders averaged \$15.29 per cwt. up \$1.00 from April and \$3.45 above May 2000.

The mailbox price is defined as the net price received by dairy farmers for milk, including all payments received for milk sold and deducting costs associated with marketing the milk.

All mailbox prices are reported at test; there is no adjustment to 3.5% butterfat.

Members Appointed to National Dairy Board

The Secretary of Agriculture recently appointed nine new members and reappointed four incumbents to the National Dairy Promotion and Research Board (NDPRB). All, except one, will serve three-year terms beginning November 1, 2001.

The list in the box to the right shows, effective November 1, 2001, the members of the NDPRB representing the seven states comprising the Upper Midwest Order.

The NDPRB, composed of 36 dairy farmers representing 13 geographic regions of the contiguous United States, administers a coordinated program of promotion, research and nutrition education. Established by the Dairy and Tobacco Adjustment Act of 1983, the NDPRB is authorized to design programs to strengthen the dairy industry's position in domestic and foreign markets.

The national program is financed by a mandatory 15¢ per cwt. assessment on milk produced in the contiguous 48 states and marketed commercially by dairy farmers. USDA's Agricultural Marketing Service monitors the activities of the board. **Patricia M. Boettcher** Bloomer, Wisconsin 1st Term Expires 10/31/02

Mideast Federal Order Hearing Being Held

public hearing is being held to consider proposals that would amend certain pooling and related provisions of the Mideast Order, which covers portions of Indiana, Kentucky, Michigan, Ohio, Pennsylvania, and West Virginia.

The hearing is scheduled to begin at 8:30 a.m. on Tuesday, October 23, 2001 in Wadsworth, Ohio.

A copy of the hearing notice can be obtained by calling the Mideast Order at (440) 826-3220, or by visiting their website at: www.fmmaclev.com.

New Chief of Order Formulation Named

Clifford M. Carmen was appointed Chief of the Order Formulation Branch of the Dairy Programs section of the USDA Agricultural Marketing Service, effective September 23, 2001. He replaces John Borovies, who recently retired. One of the primary functions of the Order Formulation Branch is to handle Federal milk order amendment proceedings.

Carmen has been a senior marketing specialist with Order Formulation since January 1994. He was employed by dairy cooperatives in the Northeast from 1986 through 1993. Prior experience with USDA (1972-1986) includes authoring the Dairy Outlook and Situation Report published by the Economic Research Service.
