Class Prices and Producer Prices 7

Cheese and Butter Prices Down

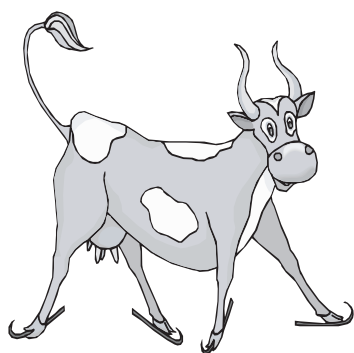

Prices for cheddar cheese on the Chicago Mercantile Exchange (CME) have dropped sharply in early January, following two months of volatility and setting or nearly setting record high prices. The CME butter price has also generally been down during the month.

On January 18, the CME barrel cheddar cheese price was \$1.80¼ per pound, down 28¾¢ from two weeks earlier. Prices for 40-pound blocks were \$1.65 per pound on January 18, down more than 50¢ in two weeks. Both cheese prices, however, are more than 30¢ above year-earlier levels.

The CME butter price on January 18 was \$1.22 per pound, down about 12¢ from mid-December, but virtually unchanged from year-earlier levels.

The December Federal order Class III price was \$20.60 per cwt., up \$1.38 from the November price and \$7.13 above the December 2006 price.

The January CME Class III futures price is currently just over \$19 per cwt., with February falling to about \$17 per cwt.

Preliminary 2007 Milk Production Released

Preliminary U.S. Department of Agriculture estimates indicate total United States milk production for 2007 was a record-high 186 billion pounds, an increase of 2.1% from 2006.

The increase in milk production was driven by an increase in both milk per cow and the average number of milk cows.

For the top ten milk producing states, 2007 production, compared to the previous year, was up 6% in Idaho and Michigan, 5% in California, 4% in Minnesota, 3% in Wisconsin and Texas, 0.5% in New York, and 1% in Washington, but down 4% in New Mexico and 0.5% in Pennsylvania.

Final estimates will be released in February.

Pool Summary

- In December, 16,546 producers delivered to the market with an average daily delivery of 4,871 pounds.
- Producer milk totaled 2.4 billion pounds, up 124 million pounds from November and 149 million pounds above December 2006.
- Class I utilization totaled 377 million pounds, down 5.5% on a daily basis

from November. Class I usage accounted for 15.6% of producer milk.

- The December Producer Price Differential (PPD) is \$0.05 per cwt.
- The Statistical Uniform Price is \$20.65 per cwt., up \$0.79 from November and \$7.18 above December 2006.
- Market statistics for December are shown on Pages 4 and 5.

2007 Annual Utilization and Classification

Annual utilization and classification for 2006 and 2007 are summarized and compared in the table on Page 2. The annual numbers represent the sum of monthly data.

Class I Utilization - Class I producer milk in 2007 was 4.5 billion pounds, down 0.4% from 2006. Class I use includes milk sold to consumers in fluid form.

Total Class I packaged disposition declined 0.6% during 2007. Decreases in disposition of milk, flavored milk, reduced fat milk, and flavored reduced fat and fat free milk more than offset the increases in disposition of lowfat milk, fat free milk and buttermilk.

Most packaged sales of milk, however, continue to be reduced fat milk, accounting for 38% of total packaged sales, followed by fat free milk at 24%, whole milk at 14%, and lowfat milk at 13%. Other categories combined made up the remaining 11% of packaged sales.

Class I use in 2007 accounted for 17.0% of total producer milk (as shown in Figure 1), up from 16.9% in 2006.

Class II Utilization - Class II producer milk in 2007 was down 220

million pounds, or 14.9% from 2006. Class II use primarily includes fluid cream products, ice cream, cottage cheese and yogurt. Class II producer milk accounted for 4.8% of total producer milk during the year.

Class III Utilization - Class III producer milk in 2007 was down 38 million pounds, or 0.2% from 2006. Class III utilization primarily includes milk used for the manufacture of hard cheeses, and accounted for 75.8% of producer milk.

Class IV Utilization - Class IV utilization in 2007 totaled 641 million pounds, down 87 million pounds from 2006. Class IV includes butter and all dried milk products, and accounted for 2.4% of total producer milk in 2007.

Producer Milk - Total producer milk in 2007 was 26.5 billion pounds and was down 0.4 billion pounds, or 1.4%, from 2006.

An average of 16,083 producers delivered to the

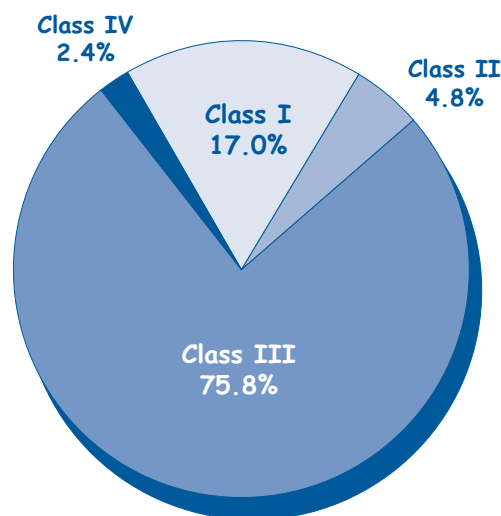

market each month in 2007, down from 16,527 in 2006.

The average daily delivery per producer in 2007 was estimated at 4,870 pounds, up from the 2006 estimate of 4,530 pounds.

Average component levels of producer milk for the year were:

- Butterfat - 3.71%
- Protein - 3.03%
- Other Solids - 5.71%
- Nonfat Solids - 8.75%

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotope, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
