Chicago Mercantile Exchange Dairy Commodity Update

Prices for cheddar cheese on the Chicago Mercantile Exchange (CME) have been declining over the last two months after four months of very little movement. The price of butter, on the other hand, has continued to hover around \$2.00 per pound since declining from near \$3.00 per pound late last year.

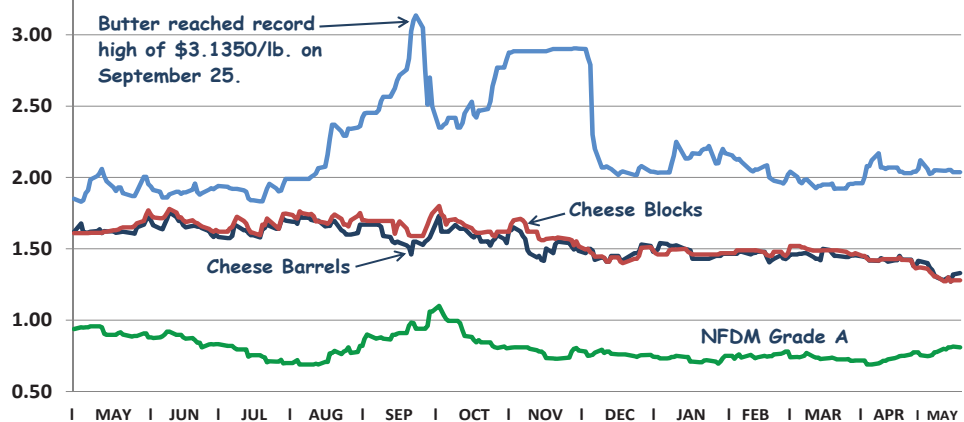

The CME barrel cheese price on May 16 was \$1.33 per pound, down 8¢ from April 15, and the 40-pound block price of \$1.28 per pound was down 14¾¢. The barrel price was also 29¼¢ below the year-earlier level, while the block price was down 34¢.

On May 16, the CME butter price closed at \$2.03¾ per pound, down 3¼¢ from April 15, but 6½¢ above a year ago.

On May 16, the CME nonfat dry milk price closed at \$0.81 per pound, up 8½¢ from April 15, but 8¾¢ above a year ago.

The April Federal Order Class III price was \$13.63 per cwt., down \$0.11 from March, and \$2.18 below April 2015. The May 2016 CME Class III futures price on May 16 was \$12.74 per cwt., with June through December 2016 ranging from \$12.37 to \$14.86 per cwt.

Chicago Mercantile Exchange - Selected Commodity Prices *

*Prices depicted are per pound for each day that trading occurred from May 1, 2015 to May 16, 2016.

Pool Summary

- In April, producer milk totaled 3.2 billion pounds, up 66 million pounds from March, and 905 million pounds above April 2015.
- Class I utilization totaled 283 million pounds, down 0.8% from March on a daily basis. Class I usage accounted for 8.9% of producer milk.
- Class III utilization totaled 2.6 billion

pounds and accounted for 81.0% of producer milk.

- The April Producer Price Differential (PPD) was \$0.15 per cwt.
- The April Statistical Uniform Price was \$13.78 per cwt., down \$0.06 from March, and \$2.06 below April 2015.
- Market statistics for April are shown on Pages 3, 4, and 5.

April 2016 Producer Milk by Class

	Percent	Product Pounds	Price \$/cwt.
Class I	8.9	283,379,329	15.54
Class II	5.5	175,702,810	13.54
Class III	81.0	2,587,295,451	13.63
Class IV	4.6	146,220,564	12.68
Total		3,192,598,154	

November 2015 Fluid Milk Product Disposition by Container Size and Type

Fluid milk product distribution (sales) in the Upper Midwest Marketing Area was surveyed for November 2015 with respect to method of distribution and size and type of container. Following is a summary of the results of the survey.

This is the eighth survey conducted for the Upper Midwest Order since order consolidation and reform in January 2000. The most recent survey was for November 2013, and was reported in the June 2014 *Upper Midwest Dairy News*. Comparisons will be made in this article between the 2015 survey and earlier surveys.

The survey was divided into three categories: *size of container* - gallon, half-gallon, etc.; *type of container* - paper, plastic, or glass; and *method of distribution* - wholesale or home delivered.

Wholesale includes all distribution of fluid milk products on routes other than home delivery. This would include sales through convenience stores and supermarkets as well as sales to schools and restaurants.

Size of Container

In November 2015, gallons accounted for 69% of the total pounds of fluid milk product distribution, as shown to the right, followed by half-gallons at 16%, half-pints at 10%, and quarts at 2%. The remaining 3% of fluid milk product distribution was accounted for by all other sizes combined. From November 2013 to November 2015, distribution of gallons decreased 1% in percentage terms, while the half-gallon category remained unchanged and the half-pint category increased 1 percentage point. Compared to the November 2001 survey, gallon distribution increased 3 percentage points, while half-gallons dropped 2 percentage points.

Type of Container

Paper includes all products sold in wax-coated or plastic-coated paper containers, including foil-lined UHT paper containers.

Plastic includes all products sold in rigid blow-mold or thermo-formed plastic containers, single-serve round (milk bottle shaped) containers, plastic-lined boxes, and plastic pouches.

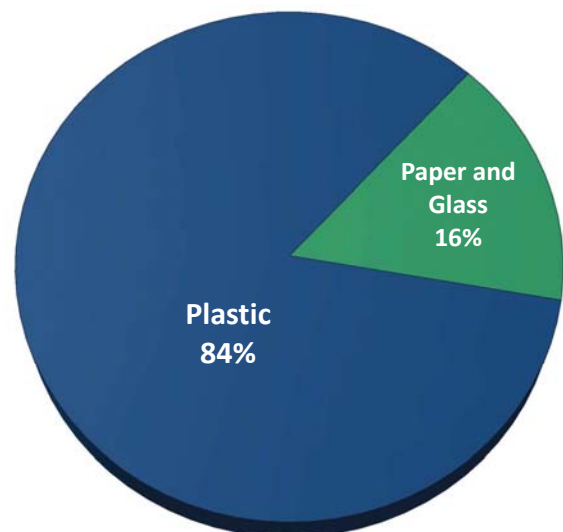

Historically, plastic containers have been increasing as a percentage of total distribution. In November 2015, plastic containers accounted for 84% of total distribution, a 1% decrease in from 2013, but still a 4 percentage point increase from 2001. Paper and glass accounted for the remaining 16% of total distribution in 2015.

November 2015 Fluid Milk Product Distribution *

By Container Size

By Container Type

* As a percentage of total pounds distributed.

Distribution of paper and glass have been combined since 2005 because of restricted information. Distribution in glass accounted for slightly over 1% of total distribution in 2015.

Type of Container Within Container Size

Gallon containers were exclusively sold in plastic in November 2015, no change from any of the earlier surveys, as shown in the table below. Disposition of half-gallons in plastic containers accounted for 65% of all half-gallons sold, unchanged from November 2013 but 10 percentage points above 2001. Paper and glass accounted for the remaining 35% of all half-gallons sold. (All of the glass containers sold were the half-gallon size.)

Distribution of quarts in plastic accounted

for 62%, with 38% sold in paper. This represents an 8 percentage point increase in plastic from 2013. Distribution of half-pints in paper accounts for 94% of all half-pints sold.

In the survey, information on disposition of conventional, extended shelf life (ultra pasteurization or aseptic pasteurization), and organic milk is obtained. In November 2015, milk sold as organic accounted for 5.8% of fluid sales, while extended shelf life accounted for 1.6%, and conventional fluid milk accounted for a significant majority of 92.6%.

Method of Distribution

In November 2015, home delivery accounted for just over 1% of total route disposition, a slight increase from the last two surveys. Distribution through wholesale outlets accounted for the remaining 99%. The volume of route disposition from home delivery in November 2015 was slightly above 3.2 million pounds, up 0.9 million pounds from November 2013, but well down from 5.3 million pounds in November 2001.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex (including gender identity and expression), marital status, familial status, parental status, religion, sexual orientation, political beliefs, genetic information, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
