CME Dairy Prices up in September

Prices for cheddar cheese on the Chicago Mercantile Exchange (CME) in mid-September are above a month earlier, but below last year.

The barrel cheese price of \$1.60 per pound on September 21 was up a net of 12¼¢ from August 20 and 22¢ above its low point during the period, but 3½¢ below September 2020.

Meanwhile, the 40-pound block price for cheese was \$1.75 per pound on September 21, 5¾¢ above last month. However, blocks

were down 92¼¢, or nearly 35%, from a year ago when the market was highly influenced by the pandemic. See *Figure 1* on Page 2 for an illustration of the volatility last year.

The CME butter price on September 21 was \$1.75 per pound, up 8¾¢ from last month and 16¢ above last year.

A calculation of the payment for an “average” producer is illustrated for the last four months in the *Table 1* on Page 2.

USDA Dairy Donation Program

The US Department of Agriculture (USDA) recently announced a Dairy Donation Program (DDP) to facilitate timely dairy product donations while reducing food waste.

Under this new program, eligible dairy organizations form partnerships with non-profit feeding organizations that distribute food to individuals and families in need. Those partnerships may apply for and receive reimbursements to cover some expenses related to eligible dairy product donations.

An eligible dairy organization is a dairy farmer, cooperative, or processor that purchases fresh milk or bulk dairy products to

process into retail-packaged dairy products and accounts to a Federal milk marketing order (FMMO).

The reimbursement rate will be the sum of:

- 1) the cost of milk used to make the donated eligible dairy product (monthly FMMO classified milk price based on the product and month of processing);
- 2) manufacturing cost (FMMO make allowance); and
- 3) transportation cost from the plant to distribution point.

Continued on Page 2

Pool Summary

- In August, producer milk totaled 2.1 billion pounds, up 8% from last month and 90% above last year. The increases resulted from a decline in the estimated volume of milk not pooled.
- Class I utilization was 201 million pounds, up 2.4% from July, but 0.9% below last year. In August, Class I use was 9.7% of producer milk.
- The August Producer Price Differential (PPD) was \$0.27 per cwt.
- The F.O. 30 Statistical Uniform Price in August was \$16.22 per cwt., down \$0.52 from July and \$1.49 below last year.
- Market statistics for August are shown on Pages 4 and 5.

Continued from Page 1

These reimbursements will help offset the cost for dairy products donated to food assistance programs.

Details about program eligibility and participation are available at:

www.ams.usda.gov/ddp

Interested partnerships must apply by completing and submitting a Dairy Donation and Distribution Plan (Plan) describing the process to be used for the donation, processing, transportation,

temporary storage, and distribution of eligible dairy products.

Plans will be accepted on a rolling basis and approved within 15 business days of submission. After approval, partnerships will be able to submit specific information to obtain reimbursement claims for eligible dairy products donated since January 1, 2020.

Entities participating in the MDRP will be automatically enrolled and do not need to reapply for the DDP. Supplemental reimbursements will be

automatically distributed to MDRP participants who received reimbursements under the MDRP for eligible donations made since January 1, 2020. These reimbursements will equal the difference between the reimbursed values for the DDP and MDRP.

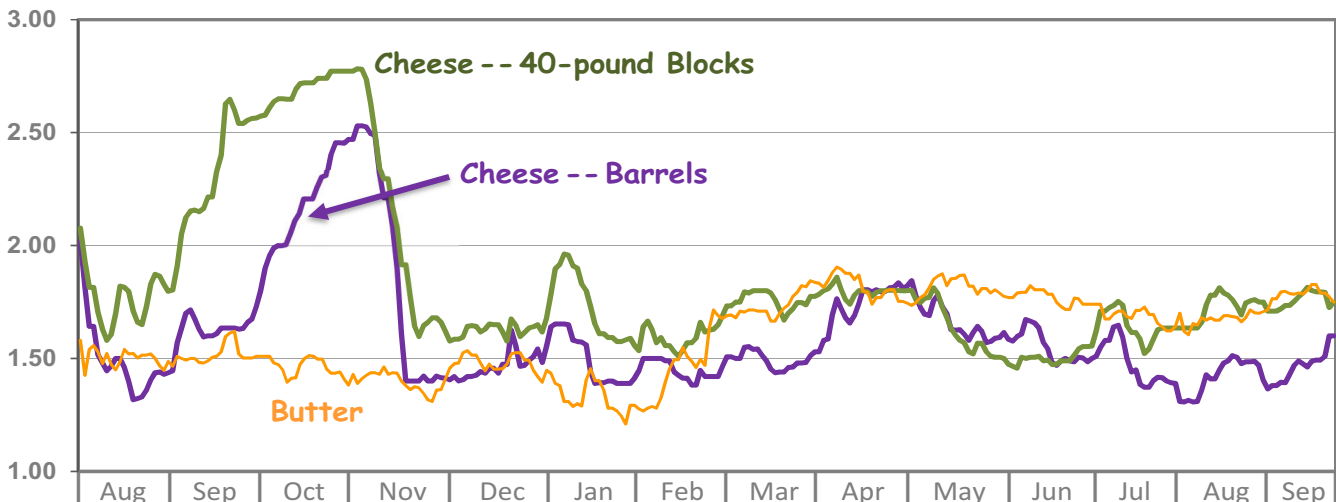

To ensure equitable participation amongst low-income and other underserved persons and communities, USDA-AMS encourages collaborations with faith-based, community-based, and non-profit organizations of all sizes.

* The somatic cell (SC) payment rate is calculated by subtracting the cell count (in thousands) from 350, and multiplying the result by the SC adjustment rate, rounding to nearest full cent. For May, in this example, that is: [(350-170) x \$0.00091] or 180 x \$0.00091 = \$0.16. For June the SC adjustment rate is \$0.00082, resulting in a \$0.15 rate. For July and August the SC adjustment rate is \$0.00080 resulting in a \$0.14 rate.

Jenny Moffit Confirmed as Under Secretary at USDA for Marketing and Regulatory Programs

Jenny Lester Moffitt was confirmed by the U.S. Senate in early August to serve as the USDA Under Secretary for Marketing and Regulatory Programs.

Moffitt previously served as the Undersecretary at the California Department of Food and Agriculture (CDFA), and also served as Deputy Secretary for the agency.

Prior to her time with CDFA, Moffitt spent ten years as Managing Director at Dixon Ridge Farms, her family’s organic walnut farm and processing operation in Solano County, California.

Additionally, she served on the Central Valley Regional Water Quality Control Board from 2012-2015 and worked for American Farmland Trust from 2002-2005.

Moffitt is a graduate of Brown University and the California Agricultural Leadership Program. She resides in Davis, California with her husband and daughter.

As a farmer and policymaker, Moffitt has engaged with agricultural stakeholders on the critically important balance of sustaining our environment, strengthening our rural economies, and building healthy communities.

In announcing her confirmation, Secretary of Agriculture Tom Vilsack said, “Jenny’s experience and dedication to her craft, including growing up and working on an organic farm, will help elevate USDA’s work to support

our producers and protect the health and value of America’s agricultural and natural resources, and animals and plants. With her guidance and leadership, USDA will help to build more robust and resilient local and regional food systems that support new, more and fairer market opportunities for American producers and food companies. We are glad to have her on the team.”

When announcing the action earlier in the year, Secretary Vilsack said her nomination “demonstrates that USDA is committed to putting the perspective of our producers at the heart of what we do.”

Moffitt has said that growing up and working on the farm solidified the importance of taking care of the land and the people who farm it.

Marketing and Regulatory Programs is a mission area focused on facilitating the domestic and international marketing of U.S. agricultural products, ensuring the health and care of animals and plants, and setting national and international standards.
