See Pages 6 and 7 for previously announced prices, including the July and August 2026 Advanced Class Prices and Price Factors.

Cheese Prices Rise in July as NFDM Continues to Decline

Commodity dairy prices on the Chicago Mercantile Exchange (CME), lead by block cheddar cheese, mostly rose in July, except for the NFDM price which continues to fall. Comparing prices to last July, barrel, block, and butter prices were down while NFDM and whey prices were up. See the graph below.

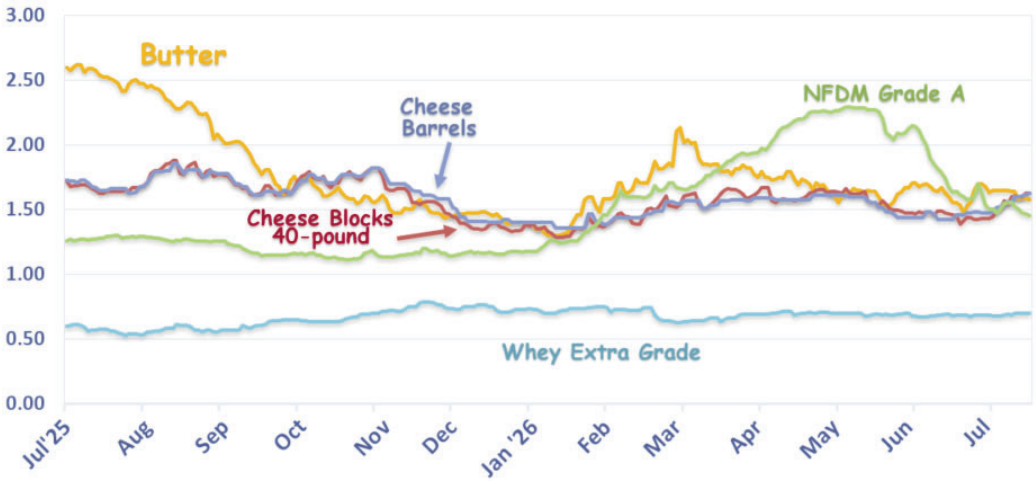
The CME barrel price for cheddar cheese on July 20 was $1.62¾ per pound, up 16¾¢ from June but 3¼¢ below last year. The CME 40-pound block price for cheddar cheese was $1.63 per pound, up 24¢ from last month but 1¼¢ below last year.

The CME butter price on July 20 was $1.57¼ per pound, 4¼¢ above last month but 92¾¢ below last year.

The CME price for NFDM on July 20 was $1.45 per pound, down 16½¢ from June but up 15¢ above last year.

The CME whey price on July 20 was $0.69½ per pound, up 1½¢ from last month and 13¼¢ above last year.

Chicago Mercantile Exchange - Selected Dairy Commodity Prices*



* Prices depicted are dollars per pound for each day that trading occurred from July 1, 2025 through July 20, 2026.

Pool Summary

- In June, producer milk was 2.7 billion pounds, up 3.2% daily from May and 20.8% above last June.
- Class I use was 153 million pounds, up 0.2% daily from May and 7.6% above last year. In June, Class I use was 5.8% of total producer milk.
- The June 2026 Producer Price Differential (PPD) was $0.87 per cwt.
- The F.O. 30 Statistical Uniform Price in June was $16.85 per cwt., down $0.76 from May, and $2.25 below last year. Federal Order language was amended effective June 2025 and December 2025.
- Market statistics for May and June are shown on Pages 4 and 5.

June 2026 Producer Milk by Class

	Percent	Product Pounds	Price $/cwt.
Class I	5.8	153,169,955	25.38
Class II	0.9	24,027,632	22.78
Class III	92.8	2,473,211,009	15.98
Class IV	0.5	14,386,307	20.96
Total		**2,664,794,903**	

F.O. 30 Component & SCC Levels in Herd Milk--2025

The Upper Midwest Order released a staff paper in May 2026 prepared by Dr. Areerat Kichkha, an agricultural economist with the Upper Midwest Order. Staff Paper 26-01, ***Analysis of Component Levels and Somatic Cell Count in Individual Herd Milk at the Farm Level -- 2025,*** has been published on our website at:

www.fmma30.com/Staff_Papers.html.

Data on the butterfat, protein, other solids and solids-not-fat (SNF) levels and somatic cell count (SCC) were examined for producer milk associated with the Upper Midwest Order during 2025.

Results from the analyses include: market and state averages and seasonal variation in component levels and SCC, and statistical relationships among the four components in individual herd milk at the farm level.

Major Findings

1) Weighted average component levels and SCC for 2025 were 4.39% butterfat, 3.35% protein, 5.79% other solids, 9.14% SNF, and 174,000 SCC.

2) For 2025, weighted average butterfat, protein and SNF levels were lowest in July and highest at the end of the year, while other solids levels were lowest in November and highest in February, March, May and July. Monthly weighted average butterfat and protein tests ranged from 4.17% to 4.60% and from 3.19% to 3.50%, respectively. Other solids only ranged between 5.75% and 5.80%. Weighted average SCC were lowest in December, March and April and highest in August, ranging between 160,000 and 207,000.

3) Butterfat, protein, other solids and solids-not-fat tests tended to be higher with larger producers. Larger producers, on average, also tended to have lower somatic cell counts than their smaller counterparts. None of the trends are monotonic, however.

4) In 2025, the range of weighted average component levels within one standard deviation of the weighted average was: 4.01% to 4.77% for butterfat, 3.12% to 3.58% for protein, 5.70% to 5.88% for other solids, 8.90% to 9.38% for SNF, and 89,000 to 259,000 for SCC.

5) Within the paper, the weighted average Somatic Cell Count was examined from the years 2013 through 2025. It is notable that there is a seasonal pattern of higher levels in the summer and lower levels in the fall and winter. Furthermore, there has been a general trend of lower highs and lower lows annually. Seasonal high levels of SCC for 2019 and beyond are lower than the seasonal low was in 2013. Somatic cell counts under the Upper Midwest Order showed a sustained and substantial downward trend between 2013 and 2019. The SCC annual weighted averages dropped from 224,000 in 2013 to 174,000 in 2025.

6) Since 2019, the Upper Midwest Order somatic cell counts also have shown tightened distribution around the mean and reached toward a no-trend state. This disappearing trend suggests that the SCC have sustained a stationary state with more consistent predicted values over time.

7) The annual weighted average value of butterfat, protein, and other solids, adjusted for SCC, was $21.18 per cwt. for the market in 2025. Butterfat and Protein were the most valuable components, contributing 89.3% of the total value between them.

Weighted Average Levels of Selected Components and Somatic Cell Count in Milk by Month 2025

Month	Butterfat - % -	Protein - % -	Other Solids - % -	Solids-Not-Fat - % -	Somatic Cell Count - 1,000 -
January	4.53	3.42	5.78	9.20	163

Annual Average	**4.39**	**3.35**	**5.79**	**9.14**	**174**

Supply Plant Systems

Supply plants are defined in §1030.6, with performance requirements defined in §1030.7(c). In general, supply plants are required to ship 4.5% of their receipts to bottling plants, as revised on August 1, 2022. These performance requirements can be met as a "system", as defined in §1030.7(f).

This provision allows two or more supply plants operated by one or more handlers to qualify for pooling by meeting the shipping requirements in the same manner as a single plant. In other words, an individual plant in a system does not need to qualify on its own, as long as the system as a whole qualifies.

Supply plants in a system must be located in the marketing area. The following supply plants requested system pooling for the period of August 2026 through July 2027. The only supply plant system in the coming year was formed by Central Milk Producers Cooperative, and this list is subject to change.

Central Milk Producers Cooperative Supply Plant System

- Dairy Farmers of America, Inc. – Fond du Lac, WI
- Cooperative Regions of Organic Producer Pools – Chaseburg, WI
- Grande Cheese Company – Rubicon, WI
- FarmFirst Dairy Cooperative – Kewaskum, WI
- Scenic Central Milk Producers Cooperative Association – Muscoda, WI
- Grassland Dairy Products, Inc. (Fairground) – Greenwood, WI
- Land O'Lakes, Inc. – Kiel, WI
- Cedar Valley Cheese, Inc. – Belgium, WI
- Sartori Company – Plymouth, WI
- Arla Foods Production, LLC – Hollandtown, WI
- Rolling Hills Dairy Producers Cooperative – Monticello, WI
- NFO, Inc. – Fond du Lac, WI
- Brewster Cheese Company – Stockton, IL
- Klondike Cheese Company – Monroe, WI
- V&V Supremo Foods, Inc. – Browntown, WI
- Zimmerman Cheese, Inc. – Wiota, WI
- Decatur Dairy, Inc. – Brodhead, WI
- BelGioioso Cheese, Inc. – Pulaski, WI
- Foremost Farms USA, Cooperative – Appleton, WI
- Saputo Cheese USA, Inc. – Waupun, WI
- Dairy State Cheese Company, LLC – Rudolph, WI
- Mullins Cheese, Inc. – Plover, WI
- Mullins Cheese, Inc. – Marshfield, WI
- Mullins Cheese, Inc. – Mosinee, WI
- Lynn Dairy, Inc. – Granton, WI
- Nasonville Dairy, Inc. – Marshfield, WI
- LaGrander's Hillside Dairy, Inc. – Stanley, WI
- Eau Galle Cheese Factory, LLC– Durand, WI
- Burnett Dairy Cooperative, D/B/A Cady Cheese LLC – Wilson, WI
- Land O'Lakes, Inc. – Melrose, MN
- Prairie Farms Dairy, Inc. – Faribault, MN
- Grassland Dairy Products, Inc. (Main St) – Greenwood, WI
- Associated Milk Producers Inc. – Jim Falls, WI
- First District Association – Litchfield, MN
- Ellsworth Cooperative Creamery – Ellsworth, WI
- Associated Milk Producers Inc. – Paynesville, MN
- Bongards' Creameries – Perham, MN

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at 711. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at How to File a Program Discrimination Complaint and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.

USDA is an equal opportunity provider, employer, and lender.
